

AL-VI-B-179
Pekin Schoolhouse
Route 36, Pekin
1870's

The public school system of Allegany County was established in 1865, but it was not until the 1870's that adequate schoolhouses were built. "Once the school building program really began, the mining areas were well looked after." Schoolhouses in the mining region were usually built on land donated by the mining companies. The schoolhouse in Pekin was built in the late 1870's in the middle of town. It was staffed by a principal and two teachers. The gabled roof is hipped on one end. On the southeast is a gabled vestibule, a feature found on most schoolhouses in the western part of the county.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Pekin Schoolhouse is located on the southeastern side of Route 36 in Pekin.

The building consists of a one story rectangular frame structure with germansiding. It rests on a low stone foundation of random rubble with a plain water table. The gable front roof which is hipped on the northwest, is covered with tar paper. Eaves consist of a cornice, soffit, and bedmould. Two original brick chimneys are located inside end.

The main entrance is in a gabled vestibule on the southeast. This pedimented entrance includes a five light transom and double doors of five panels each. A pedimented entrance on the northwest includes a three light transom and a five panel door. Wide pedimented windows with wooden lugsills are pegged six over six lights.

STATEMENT OF SIGNIFICANCE

The public school system of Allegany County was established in 1865, but it was not until the 1870's that adequate schoolhouses were erected. (1) Until that time coal companies provided for the education of the children of the Georges' Creek mining area. (2) "Once the school building program really began, the mining areas were well looked after." (3) By 1881, every community had at least one public school. (4) The schoolhouses were usually built on property donated by the mining companies. (5)

Pekin school was built in the late 1870's on a parcel of land in the center of town. (6) The principal in 1881 was William J. Bogan who was assisted by two teachers. (7) The building is unusual in that the roof is gabled on the southeast and hipped on the northwest. A gabled vestibule on the southeast is the main entrance.

The schoolhouse is empty and in fair condition. It stands as a reminder of the progress of education in Allegany County.
